

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

FRIDAY, JANUARY 26	DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE
4:30 pm – 5:00 pm	REGISTRATION
5:00 pm – 7:30 pm	<p>Welcome Reception <i>Heavy hors d'oeuvres, beer and wine provided and included in registration</i></p> <p>Seminar Introduction and Objectives <i>Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)</i></p> <p>Feline Chronic Gingivostomatitis <i>Maria Soltero-Rivera DVM, DAVDC</i></p> <p>2.5 CEU PENDING</p>
7:30 pm	<p>Adjourn <i>Dinner on your own</i></p>

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

SATURDAY, JANUARY 27	DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE
6:30 am – 7:00 am	BREAKFAST <i>Provided and included with registration</i>
7:00 am – 9:00 am	Morning Sessions Oral Masses and Defects: Clinical approach, diagnostic imaging and surgical management <i>Stephanie Goldschmidt BVM&S, DAVDC</i> <i>Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)</i> 2.0 CEU PENDING
9:00 am	Ski time – Hit the Slopes!
4:30 pm – 7:00 pm	Evening Sessions <i>Heavy hors d'oeuvres, beer and wine provided and included in registration</i> Periodontal Disease <i>Maria Soltero-Rivera DVM, DAVDC</i> Interpretation of canine and feline dental radiographs <i>Maria Soltero-Rivera DVM, DAVDC</i> Current recommendations for AB use in the dentistry and oral surgery <i>Stephanie Goldschmidt BVM&S, DAVDC</i> 2.5 CEU PENDING
7:00 pm	Adjourn <i>Dinner on your own</i>

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

SUNDAY, JANUARY 28	DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE
6:30 am - 7:00 am	BREAKFAST <i>Provided and included in registration</i>
7:00 am - 10:00 am	Morning Sessions Contemporary management of mandibular and maxillofacial fractures <i>Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)</i> Difficulties in opening and closing the mouth: TMJ disorders <i>Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)</i> Retrobulbar disorders and Advancement maxillofacial care and rehabilitation <i>Stephanie Goldschmidt BVM&S, DAVDC</i> <i>Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)</i> 3.0 CEU PENDING
10:00 am	Meeting Adjourned! Thank you!

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

LEARNING OBJECTIVES

DAY 1: Friday, January 26, 2024

Feline Chronic Gingivostomatitis

Maria Soltero-Rivera DVM, DAVDC

- Discuss prevalence, clinical manifestations and clinical management of feline chronic gingivostomatitis (FCGS)
- Discuss current knowledge and new findings on the pathophysiology of FCGS
- Discuss contemporary and novel treatments alternatives

LEARNING OBJECTIVES

DAY 2: Saturday, January 27, 2024

Oral Masses and Defects: Clinical approach, diagnostic imaging and surgical management

Stephanie Goldschmidt BVM&S, DAVDC

Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)

- Clinical approach to the oral mass
 - I. Learn how to perform a diagnostic biopsy for an oral mass
 - II. Learn best practice for staging for oral masses
 - III. Understand the risks versus benefit ratio for each staging test pending the tumor type
- Diagnostic imaging in oral and maxillofacial oncology
 - I. Learn the diagnostic benefits of different imaging techniques for the oral and maxillofacial region
 - II. Understand which imaging technique should be recommend for different clinical situations in oral oncology
 - III. Understand the basic principles associated with different imaging techniques
- Surgical options for oral and maxillofacial cancer in dogs and cats
 - I. Understand what surgical treatment options that are available for oral tumors in the maxilla, orbit, mandible, and tongue
 - II. Learn the common complications and post-operative cosmesis associated with these techniques
- Management of cleft palate and palatal defects
 - I. Increase your understanding of diagnosis and general assessment of palatal defects and cleft palate.
 - II. Understand the importance of timing and surgical planning for repair of cleft palate.
 - III. Familiarize yourself with treatment modalities available as well as outcome.

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

Periodontal Disease

Maria Soltero-Rivera DVM, DAVDC

- Review prevalence, clinical manifestations and consequences of periodontal disease (PD)
- Review current and promising novel diagnostic methods for PD
- Review the paradigm shift in treatment based on new knowledge of healing of periodontal tissues and the subgingival microbiome

Interpretation of canine and feline dental radiographs

Maria Soltero-Rivera DVM, DAVDC

- Review radiation safety principles, dental radiographic equipment, patient positioning, and radiographic exposure techniques
- Review radiographic interpretation for the most common oral pathologies seen in dogs and cats

Current recommendations for AB use in the dentistry and oral surgery

Stephanie Goldschmidt BVM&S, DAVDC

- Review the concerns regarding antibiotic misuse and over use in veterinary and human health
- Learn when antibiotics are indicated for dental and oral surgery procedures
- Learn what antibiotic protocol is recommended

LEARNING OBJECTIVES

DAY 3: Sunday, January 28, 2024

Contemporary management of mandibular and maxillofacial fractures

Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)

- Increase your understanding of management of mandibular and maxillofacial fracture management.
- Understand the importance of diagnostic imaging.
- Familiarize yourself with various treatment modalities for mandibular and maxillofacial fractures.

DENTISTRY AND OROMAXILLOFACIAL SURGERY CONFERENCE

January 26-28, 2024 | in-person only | Incline village, nv | Up to 10 HOURS CEU

Difficulties in opening and closing the mouth: TMJ disorders

Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)

- Familiarize yourself with the various reasons of difficulties in opening and closing the mouth
- Appreciate the need and use of advanced diagnostic imaging such as computed tomography for diagnosis of difficulties of opening/closing the mouth
- Understand the ramification of TMJ disorders in the context of difficulties of opening/closing the mouth.
- Familiarize yourself with therapeutic options

Retrobulbar disorders and Advancement maxillofacial care and rehabilitation

Stephanie Goldschmidt BVM&S, DAVDC

Boaz Arzi DVM, DAVDC, DEVDC, FF-AVDC (OMFS)

- Retrobulbar disorders
 - I. Increase your understanding of clinical scenarios involving difficulties in opening or closing the mouth in cats and dogs
 - II. Understand the importance of selecting the ideal imaging method to diagnose difficulty in opening or closing the mouth
 - III. Familiarize yourself with how to perform surgical or medical therapies to resolve difficulties in opening or closing the mouth.
- Advancement maxillofacial care and rehabilitation
 - I. Learn what options are available for chronic defects – including mandibular fractures and wounds
 - II. Understand the post-operative management associated with advanced reconstructive procedures
 - III. Learn strategies for chronic care of these patients – include rehabilitation for TMJ disorders
