

UC DAVIS ON THE ROAD: SAN DIEGO FALL SYMPOSIUM

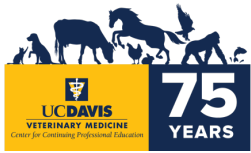

OCTOBER 21, 2023

ONSITE SAN DIEGO HUMANE SOCIETY & LIVE WEBINAR | UP TO 7.5 HOURS CEU

SATURDAY, OCTOBER 21st	UC DAVIS ON THE ROAD: SAN DIEGO FALL SYMPOSIUM
7:30 am – 8:00 am	REGISTRATION AND BREAKFAST
8:00 am – 8:15 am	WELCOME <i>Jodi Westropp DVM, PhD, DACVIM</i> <i>Gary Weitzman DVM, MPH, CAWA & Jonathan Chapman DVM, MPH, CPH, DACVPM</i> 
8:15 am – 9:05 am	Rocky mountain spotted fever at your doorstep: What a veterinarian needs to know <i>Janet Foley DVM, PhD</i> 1.0 CEU
9:10 am – 10:30 am	Prevention and management of challenging RMSF cases in dogs <i>Laura Harlan Backus MPH, DVM, PhD, DACVPM</i> <i>Q/A with Drs. Foley and Backus</i> 1.5 CEU
10:30 am – 10:45 am	BREAK
10:45 am – 11:35 am	Cardiorenal syndrome: Treat the heart and save the kidneys! <i>Joao Orvalho DVM, DACVIM (Cardiology)</i> 1.0 CEU 
11:45 am – 1:00 pm	Canine lower urinary tract disorders: Making those complex cases simple! <i>Jodi Westropp DVM, PhD, DACVIM (Internal Medicine)</i> 1.5 CEU
1:00 pm – 2:00 pm	LUNCH
1:30 pm – 2:00pm	TOURS OF THE SAN DIEGO HUMANE SOCIETY* (pre-registration required) Behavior Center (Max 10) San Diego Humane Society Veterinary Hospital (Max 10) Project Wildlife (Max 10) 
2:00 pm – 3:30 pm	“A shelter’s dog’s journey” Secrets from a veterinary behaviorist – From the shelter to a FURever home <i>Jeannine Berger DVM, DACVB, DACAW, CAWA</i> 1.5 CEU

OCTOBER 21, 2023

ONSITE SAN DIEGO HUMANE SOCIETY & LIVE WEBINAR | UP TO 7.5 HOURS CEU

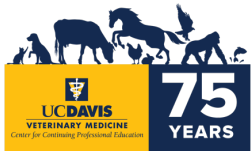

3:30 pm – 3:45 pm	BREAK
3:45 pm – 4:45 pm	Sustainability in Veterinary Medicine <i>Diccon Westworth BVSc, DACVIM (Neurology), NCT</i> 1.0 CEU
4:45 pm	Closing Remarks/Adjourn
4:45 pm – 5:15 pm	TOURS OF THE SAN DIEGO HUMANE SOCIETY* (pre-registration required) Behavior Center (<i>Max 10</i>) San Diego Humane Society Veterinary Hospital (<i>Max 10</i>) Project Wildlife (<i>Max 10</i>)

*SDHS TOURS – Only 1 tour per timeslot can be selected. RSVP during registration.

UC DAVIS ON THE ROAD: SAN DIEGO FALL SYMPOSIUM

OCTOBER 21, 2023

ONSITE SAN DIEGO HUMANE SOCIETY & LIVE WEBINAR | UP TO 7.5 HOURS CEU

LEARNING OBJECTIVES

Rocky mountain spotted fever at your doorstep: What a veterinarian needs to know

Janet Foley, DVM, PhD

- Attendees will learn the basic ecology of Rocky Mountain spotted fever and other spotted fever group rickettsioses, including how it is transmitted, high-risk geographical areas, and spatial patterns of the vector tick and the disease.
- Attendees will understand the epidemiology of RMSF and risk factors at the level of the human patient, the dog, and the community.
- We will discuss community-based interventions that may reduce risk.

Prevention and management of challenging RMSF cases in dogs

Laura Harlan Backus, MPH, DVM, PhD, DACVPM

- Attendees will be able to describe clinical similarities and differences between RMSF and other tick-borne diseases in dogs.
- Attendees will be able to identify clinical signs and historical risk factors that create an index of suspicion for RMSF in dogs.
- Attendees will be able to recommend appropriate diagnostic testing for RMSF and interpret the results of diagnostic tests.

Cardiorenal syndrome: Treat the heart and save the kidneys!

Joao Orvalho, DVM, DACVIM (Cardiology)

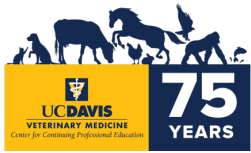

- Learn the cardiorenal syndrome classification.
- Identify cardiorenal patients.
- Understand the management of cardiorenal patients.

Canine lower urinary tract disorders: Making those complex cases simple!

Jodi Westropp, DVM, PhD, DACVIM (Internal Medicine)

- After this session, the attendee will be able to apply the general pathophysiology for pets with calcium oxalate urolithiasis to tailor appropriate diagnostics.
- The attendee will be able to develop dietary management plans for their patients with various lower urinary tract disorders.
- The attendee will gain an understanding of the most recent adjunct diagnostics & therapeutics for pets with urinary disease, with an emphasis on UTI.

UC DAVIS ON THE ROAD: SAN DIEGO FALL SYMPOSIUM

OCTOBER 21, 2023

ONSITE SAN DIEGO HUMANE SOCIETY & LIVE WEBINAR | UP TO 7.5 HOURS CEU

“A shelter’s dog’s journey” Secrets from a veterinary behaviorist – From the shelter to a FURever home

Jeannine Berger, DVM, DACVB, DACAW, CAWA

- Review the 5 Freedoms Model and understand how they are interconnected and help us make daily welfare centric animal care decisions.
- Understand the various behavior challenges encountered in shelter dogs and how they can be addressed from intake to outcome.
- Recognize the importance of Capacity for Care, Pathway planning and an organizations mission.

Sustainability in Veterinary Medicine

Diccon Westworth, BVSc, DACVIM (Neurology)

- To understand the causes and effects of anthropogenic climate change on human and animal health.
- To understand the importance of carbon literacy and how to calculate our carbon footprint - To define sustainability in general terms and introduce the concept of the triple bottom line.
- To recognize the role that we can play in addressing the environmental crisis: sustainable pet ownership and sustainable veterinary healthcare provision.
- To recognize the areas where changes can be made in clinical practice to reduce the environmental impact of health care (energy source and use, procurement, waste management, use of pharmaceuticals and green prescribing, lower flow anesthesia, block anesthesia).
- Understand the business case for sustainability in terms of mental well-being, staff recruitment, retention, client engagement and operational resilience.
